CARE GUIDE — METALS

HOW TO CLEAN / POLISH

To ensure a long lifespan of brushed stainless steel surfaces, it is recommended to clean the product with a soft, damp cloth. The surface should always be wiped dry with a dry cloth to avoid the formation of stains.

Cleaning products, chemicals or abrasive cleaning agents must not be used when cleaning the product. Please note that vigorous polishing may damage the surface.

STORYTELLING

CURVA BENCH / BY AYTM DESIGN TEAM

The CURVA SOLID Bench reimagines the iconic CURVA silhouette in solid stainless steel, transforming the familiar soft curve into a sculptural object with striking presence and weight.

Balancing soft movement with architectural precision, the bench creates a refined interplay between light, reflection and materiality. The polished stainless steel surface continuously responds to its surroundings, capturing shifting light and reflections throughout the day.

With its grounded expression and multifunctional character, CURVA SOLID works both as a bench and as a sculptural statement piece within the interior. A design where softness becomes solid - and form becomes presence. You can also find our new CURVA SOLID stool in the polished stainless steel look.

THE CURVA FAMILY

Inspired by the waves of the ocean, the CURVA family refers to a mild summer day where a warm breeze and blue skies dominates the atmosphere. With the simple curves and contours, CURVA casts beautiful shadows and reflections that adds dimension and dynamic to any space. The overall appearance of CURVA takes on a light touch and blends perfectly into any setting. The simple wires creates a sleek, yet sculptural, expression that combines practicality with aesthetic with a functionality that is determined solely by your imagination.
